

Printers for Endless Possibilities

ComColor GD9630

**Reliable performance
for your high-volume production print jobs**

**ComColor GD 9630 was highly rated for its stable performance
in Buyers Lab's high-volume performance test.**

Designed for Speed, Stability, and High-volume Production Print Jobs

- Ultra-high speed - 160ppm
- 5 colour inks deliver outstanding print quality
- Fast-drying, oil-based pigment inks require no heat which ensures cold and flat printed output
- High capacity feeder and stacker to streamline production
- Low cost volume printing

Awarded Buyers Lab Performance Certification

The RISO ComColor GD 9630 evaluation involved 1 million sheets, using a variety of different paper stocks over a period of a month, and assessed on various key performance factors.

Benefits

The key benefits found by Buyers Lab include:

- ✓ More than 1 million sheets printed with impressive reliability.
- ✓ It also showed excellent performance on difficult papers such as NCR multi-part carbonless paper and envelopes.
- ✓ The machine delivered first-rate colour consistency and colour optical densities without the need of regular calibration when running both lightweight and heavyweight paper.
- ✓ It showed high accuracy in front-to-back registration when duplexing using A4 media.

The 2019 Buyers Lab Certificate of Achievement states that ComColor GD 9630 has been awarded the Performance Certified based on the successful completion of Buyers Laboratory 1,000,000-impression durability test.

* About Keypoint Intelligence – Buyers Lab: Keypoint Intelligence is the world's leading independent provider of analytical information and testing services to the document management industry. For over 50 years, buyers have relied on Buyers Lab to help them differentiate products' strengths and weaknesses and make the best purchasing decisions.
