

Printers for Endless Possibilities

ComColor GD7330

130 ppm/High-speed Inkjet Printer/A3/Ledger

ComColor
GD7330

Best Performance, Fastest Output.

Transform Your Printing

Engineered to empower your business with high volume, reliable and quality output.

Designed for Speed, Stability and High-volume Production Print Jobs

The FORCEJET Advantage

RISO's high-speed inkjet technology, FORCEJET, consists of wide, color, in-line inkjet print heads arranged in parallel for single-pass printing of black, cyan, magenta, yellow and gray on A3/Ledger short-edge feed paper. Fast printing functionality combined with a rapid and stable paper supply results in an amazingly fast print speed of 130 pages per minute for A4 long-edge feed in simplex.

Stabilized Paper Feed

A straight-path feeding system feeds paper horizontally to enable high-speed printing with minimal print offset. FORCEJET technology ensures optimal paper feed speed that is matched to the amount of ink being sprayed from the ink heads.

High-speed Printing Ink

Special quick-drying, oil-based pigment ink developed exclusively for the ComColor GD series prevents reverse-side staining of printed paper as well as cockling, to allow for unprecedented high-speed duplex inkjet printing. The ink is also resistant to degradation from light and water.

Large-capacity Trays

By loading the same-size paper into three feed trays and one standard tray, over 2,500 sheets*1 can be fed into the printer, and paper can be replenished without halting the print job. Various sizes of paper can also be loaded.

A3 full-size Printing

The ComColor GD series accommodates paper sizes ranging up to 340 mm x 550 mm*2. The maximum print area exceeds A3/Ledger size, at 314 mm x 548 mm.

Cards, Envelopes and other Paper Types

Inkjet printers require no heat when printing, which prevents paper curling and reduces paper jams. Smooth feeding of cards, envelopes and more is possible using the standard tray.

High-volume Ink Cartridges

Each high-volume color ink cartridge holds 1,000 ml of ink. One cartridge can be relied upon for printing a large quantity of copies without requiring replacement.

*1 When using plain paper or recycled paper (85 gsm (23-lb bond)).

*2 When the standard tray is used.

Productivity Matters

Amazingly Fast Speeds at 130 ppm

Higher Productivity, Higher Quality

Regardless of the number and types of images or volume of text, full-color images remain true to the original. For text-intensive documents, words remain crisp and easy to read.

Super High-speed Printing

Single-pass full-color printing of up to 130 A4 long-edge feed color pages per minute with fast-drying oil-based pigment ink is possible through a unique print engine configured with static inline inkjet heads arranged in parallel. Transactional prints, transpromotional materials, invoices, and other routine business documents are also fast.

Number of prints in five minutes

Controlled Quality Output

High-precision paper-feed control enables printing at the same speed for both simplex and duplex documents to boost productivity. The responsive first print time of only five seconds means less waiting for high-volume print jobs.

Faster Scanning and Copying (Optional)

A one-pass duplex scanner improves scanning or copying, boasting a simplex/duplex scanning speed of 100 pages per minute and copying speed of 70 pages per minute. User name is automatically added to the document name, and each page of scanned data can be saved as individual PDFs. Features like ZIP compression and saving in PDF/A format are also available.

Built from the Ground up for the Demands of High-volume Printing

Small Footprint, Big Output

The ComColor GD series, which features a small footprint that makes it the ideal choice for all types of work environments, ensures high levels of productivity. Exceptional reliability in the face of consistent high-volume print jobs meets the specified demands of production and transactional printing industries. Newly-developed diamond-coated rollers supported by ball bearings, as well as other redesigned components, improve durability over the lifespan of the printer.

One Tough Machine

Built-in Quality and Flexibility,
and Enhanced Color Reproduction Features

Quality First

Taking Quality to a Higher Level

The ComColor GD series is engineered with features that ensure stable output quality for consistent printing results at high speed, including a Piezo system that regulates ink amount. Black image quality has been improved by installing a newly-developed print head and black ink. Additional inks enrich the look of images and enhance overall color quality.

This unique RISO technology and approach to the printing process brings the added benefits of a low total cost of ownership when compared with toner technology, and greater control over cost management. It also enables practical migration away from simply highlight color or mono production to a cut sheet white paper solution. This provides genuine added value, as it eliminates the need to hold large volumes of pre-printed stock and opens up possibilities for a leap forward in color printing.

Consistent Output Quality

The ComColor GD series offers higher image quality and consistent printing results through RISO inkjet technology that features a Piezo system, which ensures stable output by controlling and regulating the amount of ink deposited on the paper.

Best Black Density

A newly-developed 600 dpi print head for black with special black ink supported by gray as a fifth ink delivers top quality, 10% higher black density than ever.

Enriched Color Images

Newly-developed magenta ink significantly improves full-color image quality by expanding the color gamut.

Optimized Gradations

The fifth color, gray ink in combination with black ink, is applied for higher quality gradations, which contributes to denser blacks, suppression of roughness, and improved color reproduction and stability.

Denser Blacks

Use of a special gray ink in combination with black ink diminishes light reflection on the paper to result in a denser black saturation on the page.

Roughness Suppression

For color printing, application of the gray ink in addition to CMY inks reduces graininess for smoother results.

Improved Color Reproduction

For color printing, application of the gray ink in addition to CMY inks, colors are accurately reproduced with finer gradation, for richer colors on the page.

Improved Color Stability

For printing of gray areas, application of the gray ink in addition to CMYK inks result in more stabilized grays, reducing the instability of dot alignment of color registration.

Easy Operation via
the Intuitive Operation Panel

Highly Intuitive

Color LCD Panel

The operation panel is a nine-inch color LCD touch screen for direct operation by touching functions and swiping screens.

Main menu area
Displays main menu

Sub menu area
Displays sub menu

Status bar
Displays user name and machine condition

Tilt Positioning

A quick tilt of the screen makes for optimal viewing and convenient operation by anyone at any time.

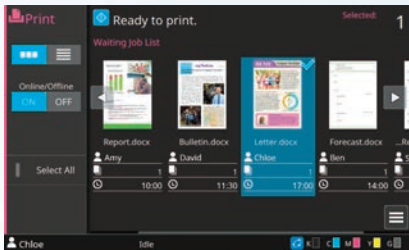

Multiple Menus Provide Quick Access to a Variety of Tasks

Favorites / Edit Button Order

Users can pre-set favorite settings, which can be accessed from any mode. Setting details can be confirmed via the displayed icons. Order of functions can be changed at will.

View Selection

In addition to a list, a thumbnail view can be accessed in order to check images on the screen.

Shortcut Icons

Up to nine shortcuts of [Favorites] can be registered on the [Home 2] screen.

Scroll mark
Leading to
[Home 2] screen

Scanning Preview

The image can be checked before saving scanned data.

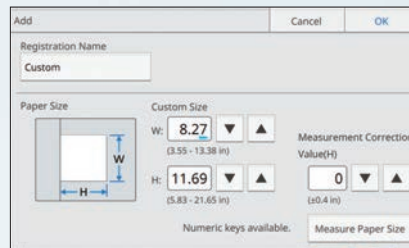

Additional Copy

Same as for printing out, copy data remains in the ComColor GD series, so additional copies can be made without reloading using originals*.

* Setting by Administrator required.

Custom Paper Entry

By feeding the paper into the ComColor GD series, paper size can be measured automatically for custom paper registrations.

Multi-part Paper Printing

Print same original data on paper set at multiple feeding trays as if printing carbonless multi-part business forms.

Page Border

A function that lets a border be added automatically to enhance the look of posters and handbills.

Multiple Network Segments

Two LAN ports* can be set up separately from the segment network, making printing possible from an internal or other network, to accommodate guests using tablet computers.

*[LAN1] cannot be selected when using the optional print controller.

Scan-to-Mail (START TLS support)

START TLS is added for encryption setting to support Office365 mail server in e-mail setting.

Acquire LDAP Mail Address

Connecting to an internal directory with LDAP authentication ensures quick configuration for a large number of users. On login, the user's mail address is automatically retrieved, saving a setup step.

Address Book

Increased functionality and operability lets individual users add and select up to 30 addresses, or add up to 300 common addresses that can be accessed by all co-workers.

ECO-PROVEN PERFORMANCE WORLDWIDE

ENERGY STAR® PROGRAM

An international program that promotes energy saving in office machines. This program is implemented in the United States, Canada, Japan, Switzerland, and Taiwan.

REACH REGULATION

Registration, Evaluation, Authorisation and Restriction of Chemical Substances (REACH) is a European Community regulation on chemicals and their safe use.

RoHS DIRECTIVE

A European Union directive on the restriction of the use of certain hazardous substances in electrical and electronic equipment.

ErP DIRECTIVE

A European Community directive that requires eco design be employed for energy-related products.

**High Capacity Feeder/
Stacker**

With use of multiple trays, the High Capacity Feeder allows 5,500 sheets of paper to be loaded for continuous feeding. Maximize the benefits of high-speed printing with uninterrupted, high-volume print runs without pausing to reload paper.

During the step after printing, the High Capacity Stacker can be set to stack face up or face down. The sets are stacked so that they are offset. This option allows stacking of larger output volumes with reduced user intervention.

Convenient removal and transport of the printed output is possible using the High Capacity Stacker Cart.

The High Capacity Feeder and High Capacity Stacker step up the printing capacity of the ComColor GD series to 4,000 sheets* without replenishing the paper. A wider range of print jobs is possible through thicker paper and envelopes, as well as A3/Ledger-size paper.

* Height up to 440 mm (17-11/32")

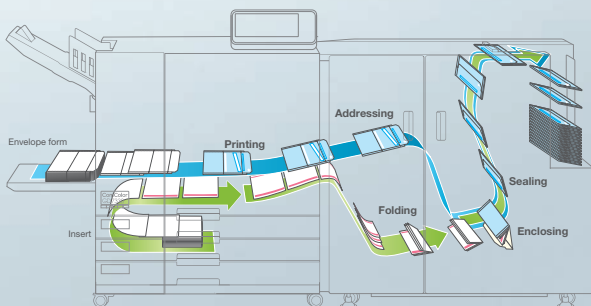

**Wrapping Envelope
Finisher**

Wrapping Envelope Finisher is a unique RISO mailing solution which is the industry's first complete in-line print-to-mail solution engineered for high-volume output for professional productivity. Print and insert up to six A4 pages (depending on weight), simplex or duplex, which are automatically wrapped and sealed in the envelope in a single pass, ready for posting.

Speeds of up to 2,000 for single page insert*1 fully wrapped and sealed mail pieces per hour are possible. Can be used with most third party postal software to print messages, logos, addresses, postal barcodes on envelopes.

*1 A4 size simplex printing.

Perfect Binder

RISO Perfect Binder Software is compatible with Adobe® PDF and Microsoft Office file formats to simplify cover design, including spine printing and print preview functions, for an efficient pre-print process. Book covers are automatically and individually trimmed to size and thickness for a professional wrap-around finish.

Perfect Binder offers securely bound printed pages by means of a high-pressure gluing process. RISO registration technology assures that pages are in order and aligned when they reach this critical point. Use of the glue roll helps reduce overall power consumption and a reduction in waste compared to traditional hot-glue-pot methods.

Perfect Binder increases productivity by dramatically reducing operator intervention and allowing for production of forty-eight 100-page duplex A4 sized books, printed and bound, in an hour, accommodating varying book thicknesses up to 600 pages, and handling binding from 1.5 mm to 30 mm (approximately 15 to 300 sheets).

Multifunction Finisher

A versatile finisher that saves time by automatically stapling, punching holes, and folding.

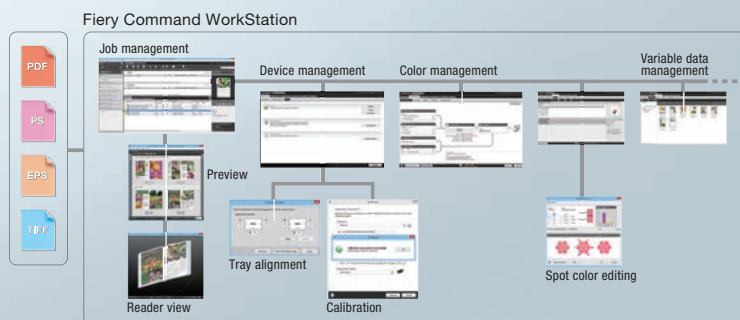

Folder Unit

An optional Folder Unit further enhances versatility.

ComColorExpress FS2000C

FS2000C, an EFI™ Fiery® server for RISO ComColor GD series, helps improve operation and the management of print jobs, files and media. The Fiery Command WorkStation® is an intuitive way for users to manage all Fiery® Driven™ printers locally or remotely.

High Capacity Feeder G10

| | |
|---|---|
| Type | External Unit |
| Paper Size | Maximum: 340 mm × 465 mm (13 3/8" × 18 5/16") Minimum: 90 mm × 148 mm (3 9/16" × 5 27/32") |
| Paper Type and Weight | 46 gsm to 210 gsm (12-lb bond to 56-lb bond) (plain paper, recycled paper, envelopes, postcards) |
| Tray Capacity | Height up to 440 mm (17 11/32") |
| Power Source | AC 100 V - 240 V, 1.0 A - 0.5 A 50 Hz - 60 Hz |
| Power Consumption | Max. 100 W Ready*1: 30 W or less Sleep*2: 30 W or less Stand-by: 0.5 W or less |
| Operating Noise | Max. 68 db (A) A4-long-edge feed (Simplex) at the maximum print speed |
| Dimensions (W × D × H) | 790 mm × 630 mm × 740 mm (31 1/8" × 24 13/16" × 29 5/32") |
| Required Space with Printer (W × D × H) | 1,565 mm × 1,240 mm × 1,160 mm (61 5/8" × 48 13/16" × 45 11/16") |
| Weight | Approx. 69 kg (152 lb) |

*1 Without printing operation

| Paper Weight | | 60 gsm to 90 gsm (16-lb bond to 24-lb bond) (plain paper, recycled paper) |
| Tri-fold Output Tray Capacity*2 | | Approx. 30 sheets |
| Number of Sheet per Fold | | 1 sheet |
| Dimensions (W × D × H) | | 210 mm × 622 mm × 1,002 mm (8 1/4" × 24 15/32" × 39 14/32") |
| Weight | | Approx. 40 kg (88 lb) |

*1 When printouts are output to the stacking tray, maximum height up pages differ according to the paper size. (A3 paper: 30 pages, B4(JIS) paper: 20 pages)
*2 When using plain paper or recycled paper (85 gsm (23-lb bond))

Consumables

Glue sheet
Binds up approx. 600 booklets (A4 size, 5 mm (7/32") width)

Primary filter
Replace after using two sets of glue sheets.

Secondary filter
Replace after using twelve sets of glue sheets or after approximately one year. Replace at the timing of whichever comes first.

Consumables

HC Staple 100

Staples for the Multifunction Finisher FG10.
Unit: 15,000 pieces of staples per carton box.

HC Staple Booklet

Saddle stitch staples for the Multifunction Finisher FG10.
Unit: 20,000 pieces of staples per carton box.

ComColor Optional Accessories

Face Down Finisher G10

| | |
|---|--|
| Type | External Unit |
| Finishing Functions | Offset stacking, staple |
| Paper Size | Without offset Maximum: 340 mm × 550 mm (13 3/8" × 21 5/8") Minimum: 90 mm × 148 mm (3 9/16" × 5 27/32") Offset output Regular-sized paper width: 182 mm × 257 mm - 297 mm × 431.8 mm (7 3/16" × 10 1/8" - 11 11/16" × 17") Irregular-sized paper width: 131 mm × 148 mm - 305 mm × 550 mm (5 3/16" × 5 27/32" - 12" × 21 5/8") |
| Paper Weight | 46 gsm to 210 gsm (12-lb bond to 56-lb bond) |
| Tray Capacity | Height up to 108 mm (4 1/4") |
| Maximum Number of Staples | 50 sheets* A4, A4 long-edge feed, B5(JIS), B5(JIS) long-edge feed, Letter, Letter long-edge feed 25 sheets* A3, B4(JIS), Ledger, Legal, Foolscap *When using plain paper and recycled paper (85 gsm (23-lb bond)) |
| Paper Size for Staple | A3, B4(JIS), A4, A4 long-edge feed, B5(JIS), B5(JIS) long-edge feed, Ledger, Legal, Letter, Letter long-edge feed, Foolscap |
| Paper Weight for Staple | 52 gsm to 210 gsm (14-lb bond to 56-lb bond) (plain paper, recycled paper) |
| Staple Position | 1 at front side (angle stapling) 1 at rear side (angle stapling) 2 at center (parallel stapling) |
| Power Source | AC 100 V - 240 V, 1.2 A - 0.6 A, 50 Hz - 60 Hz |
| Power Consumption | Max. 110 W |
| Dimensions (W × D × H) | 760 mm × 680 mm × 585 mm (29 15/16" × 26 25/32" × 23 1/32") |
| Required Space with Printer (W × D × H) | 1,440 mm × 1,240 mm × 1,345 mm (56 11/16" × 48 13/16" × 52 31/32") |
| Weight | Approx. 30 kg (66 lb) |

Consumables

ComColor Staple 50 (G)

Staples for the Face Down Finisher G10.
Unit: 15,000 pieces of staples per carton box.

| Memory Capacity | 4 GB | |
| Hard Disk**6 | Capacity | 500 GB |
| | Available Space | Approx. 430 GB |
| Operating System | Linux | |
| Power Source | AC 100 V - 240 V, 12.0 A - 6.0 A, 50 Hz - 60 Hz | |
| Power Consumption | Max. 1,200 W Ready**7: 150 W or less Sleep**8: 4 W or less Stand-by: 0.5 W or less | |
| Operating Noise | Max. 66 dB (A) A4 long-edge feed (Simplex) at the maximum print speed | |
| Operating Environment | Temperature: 15 °C to 30 °C (59 °F to 86 °F) Humidity: 40% to 70% RH (non-condensing) | |
| Dimensions (W × D × H) | In use: 1,220 mm × 725 mm × 1,160 mm (48 1/32" × 28 17/32" × 45 21/32") With cover and tray closed: 1,160 mm × 705 mm × 1,015 mm (45 21/32" × 27 3/4" × 39 15/16") | |
| Required Space (W × D × H)**9 | 1,220 mm × 1,240 mm × 1,160 mm (48 1/32" × 48 13/16" × 45 21/32") | |
| Weight | Approx. 175 kg (386 lb) | |

*1 Within 10 minutes after the last print job

*2 When using plain paper and recycled paper (85 gsm (23-lb bond)), and standard density setting.

Chart used: Print measurement pattern [Color measurement sample 2 (JEITA standard pattern J6)]

*3 The continuous print speed varies depending on the type of optional output equipment connected.

*4 The margin when printing envelopes is 10 mm (3/8").

The guaranteed area when printing images is the area enclosed within 3 mm (1/8") of the edges of the paper.

*5 Optional PS kit is required.

*6 One gigabyte (GB) is calculated as 1 billion bytes.

*7 Without printing and temperature adjustment operation.

*8 When setting [Power Consumption (in Sleep)] to [Low]

*9 With the front cover open and the operation panel in the upright position
